OFFICE OF THE PRINCIPAL INFORMATION OFFICER TO THE GOVERNMENT OF MYSORE, OLD PUBLIC OFFICES, BANGALORE.

Press Note.

As it is feared that essential materials such as copper sulphate and casein required for spraying against Koleroga of areca are likely to be delayed, it is hereby published for the information of all areca garden owners that limited

supplies of spraying material will be sold at the various Koleroga depots of the Agriculture Department. The areca gardeners are requested to obtain these spraying materials and use them very economically in view of the shortage of stocks of these materials.

The mixture that is in use at present can safely be reduced to half its strength and 5 lbs. of copper sulphate and 5 lbs. of lime used to prepare 200 purcca seers of mixture instead of only 100 seers. The casein or other adhesive used must be of the same strength as for the strong mixture.

If in the meanwhile copper sulphate and casein indented for are received they will be rushed to all the Koleroga depots for being sold.

(P. N. No. 51—31-5-1951.)

1592

Press Note.

FIXATION OF PRICE OF LOOSE CEMENT.

The present selling prices of all brands of cement in the State are as follows :—

(1) For deliveries to stations in the Mysore State on the broad gauge upto and inclusive of Bangalore City and to all stations on the narrow gauge between Bangalore City and Bangarpet and for deliveries to the Civil Station, Bangalore.	Rs. 86 per ton in full waggon loads f.o.r. any Railway Station.
(2) For deliveries to stations elsewhere in the Mysore State.	Rs. 88-4-0 per ton in full waggon loads f.o.r. any railway station

These prices are for cement packed in gunny bags. During the last few months, the price of gunny bags has greatly increased and the producers have represented that it is not possible for them to sell cement in gunny bags at the current selling prices. In the present selling price, a sum of Rs. 11-8-0, is included on account of packing charges. The price of gunnies now is round about Rs. 130 per 100 bags, which works out to about Rs. 26 per ton of cement. Moreover, since control over price of jute goods has been withdrawn, it is not possible to have a fixed controlled price for packed cement. It has, therefore, been decided that prices should be fixed for loose cement only and that the producers should be allowed to recover actual cost of packing materials subject to a maximum for supplies made in new gunny bags. If supplies are made in paper bags or in old gunny bags, the cost of packing will be subject to negotiation between the producer and the consumer, subject to the ceiling of Rs. 26 per ton.

The controlled prices of cement in Mysore State are now therefore fixed as follows with effect from 1st June 1951 :—

(1) For deliveries to stations in the Mysore State on the broad gauge up to and inclusive of Bangalore City and to all stations on the narrow gauge between Bangalore City and Bangarpet and for deliveries to Civil Station, Bangalore.	Rs. 74-8-0 per ton, loose in full waggon loads, f.o.r. any railway station.
(2) For deliveries to stations elsewhere in the Mysore State.	Rs. 76-12-0 per ton loose in full waggon loads, f.o.r. any Railway Station.

(P. N. No. 52—2-6-1951).

Press Note.

Representations have been received by Government from the agriculturists in Malnad and forest areas of the State, requesting for the reduction of property qualifications prescribed for the grant of licences to possess breach-loading guns, as the muzzle-loading guns for which licences are being granted liberally are not very effective on wild animals which damage the crops. In view of these insistent demands and also in the interest of preservation of food crops, Government have reduced the property qualifications for the grant of licences to possess B. L. guns to the ownership of ten acres of land in the State and the licensing authorities in the State have been requested to dispose of the gun licence applications accordingly.

(P.N. No. 46—28-5-1951).

Press Note.

BIFURCATION OF MINES AND EXPLOSIVES BRANCHES.

Under the Federal Financial Integration Scheme, the Department of Mines and Explosives in Mysore was integrated with the Centre with effect from 1st April 1950. The Department, however, continued to be administered by this Government on an 'Agency' basis up to 1st April 1951, when it was taken over by the Central Government for direct administration. Consequent on this, the Department has been divided into two branches, (i) the Mines Branch; and (ii) the Explosives Branch. The Mines Branch has been placed in charge of the Inspector of Mines, No. 6 Circle, with Headquarters at Oorgaum and the Explosives Branch has been placed in charge of the Inspector of Explosives, South Circle, Madras. The public are, therefore, requested to address all communications relating to explosives to the above Officer whose office is situated at No. 2—29 A, Mount Road, Madras, instead of to the Chief Inspector of Mines and Explosives, Oorgaum, as hitherto.
